JONAS BONNETT

Engineering CAD Designer · Product Owner · Lead Assembler

San Diego, CA 92127 · (858) 327-4561 · jonasbonnett@gmail.com · linkedin.com/in/jonas-bonnett-engineering-cad-designer

PROFESSIONAL SUMMARY

Manufacturing Engineering Technology professional specializing in Engineering CAD Design/Drafting, with experience as Product Owner and Lead Assembler for the 2Ah Pouch Cell Holder and PDAQ Holder. 9+ years of real-world professional experience across utility-scale solar, aerospace (UAV), civil/utility and lithium-ion battery R&D. Skilled in PTC Creo Parametric, Windchill, AutoCAD Civil 3D and ASME Y14.5-2009, with a record of building SOPs, custom tooling and technician training that make quality repeatable.

KEY ACHIEVEMENTS

- **950+ units built** across multiple unit types at Wildcat Discovery Technologies.
- **10X production increase** from 3D-printed tooling for multi-directional #10-gauge wire fixtures and positive/negative sideboard PCB terminals.
- Designed solar electrical projects ranging from **200 MW to 1 GW** at Westwood Professional Services.

PROFESSIONAL EXPERIENCE

Cell Engineering Technician 03/2026 – Present

Superior Skilled Trades · Rockledge, FL / San Diego, CA

- Precision stacking and alignment of anodes, cathodes and separators for 2Ah pouch cells in a dry room (dew point below −40 °C).
- Ultrasonic tab welding of nickel and aluminum tabs, verified by pull tests and visual inspection.
- Hi-Pot testing, leak detection and dimensional verification before formation; 100% batch traceability in LIMS.

CAD Designer, Product Owner & Lead Assembler 05/2020 – 11/2024

Wildcat Discovery Technologies · San Diego, CA (initially via Kelly Services)

- Product Owner and Lead Assembler for the 2Ah Pouch Cell Holder and PDAQ Holder.
- Built 950+ units across multiple unit types, including Pouch Cell Holders released for lithium cell testing.
- Developed 3D-printed tooling for multi-directional #10-gauge wire fixtures and positive/negative sideboard PCB terminals, increasing production 10X.
- Established SOPs for multiple Pouch Cell Holder configurations; redesigned components to reduce part count; designed lab-equipment prototypes.
- Mechanical designs, solid models and complex drawings; supported electricians and machinists.
- Managed blueprint lifecycle and engineering revisions in Creo Parametric and Windchill to ASME Y14.5-2009.
- Built a Pouch Cell Holder tracker database with pass/fail results, improving production time by 85%; led weekly process-improvement training.

CADD Technician 05/2017 – 03/2019

WHPacific Inc. · San Diego, CA

- AutoCAD Civil 3D drawings for transmission/distribution lines and structures; SDG&E as-built plans for pole relocation.
- Field-walk utility verification using survey data; trained teammates on Civil 3D workflows for corner records.

Mechanical CAD Drafter / Designer II 04/2016 – 05/2017

General Atomics Aeronautical Systems · San Diego, CA (initially via MODIS)

- Interior mechanical components for Predator XP, Gray Eagle, Predator B and Predator C Avenger UAVs and Ground Control System brackets.
- Identified sub-assembly model flaws before production, saving rework time and cost.

Structural Piping CAD Drafter / Designer III 09/2015 – 02/2016

TSAC Engineering · San Diego, CA (via Kforce)

- Drafted Morena and Miramar Pure Water pipeline plan-and-profile networks with invert elevations from GIS data.

Solar Electrical CAD Drafter / Designer 02/2014 – 08/2015

Westwood Professional Services · Minneapolis / Eden Prairie, MN (initially via Aerotek)

- Designed solar electrical projects from 200 MW to 1 GW, including Alamo Solar preliminary plans; DC/AC calculations and interconnection one-lines.
- Civil 3D module-to-module shading analysis; helped establish electrical drafting standards.

EDUCATION

AAS, Manufacturing Engineering Technology (Engineering CAD Design & Drafting) · Hennepin Technical College 2013

B.S. coursework, Design Engineering Technology (32 credits) · Trine University 2016 – 2017

CERTIFICATIONS

Mini-MBA in Business Management · IBMI (2023)

Introduction to Data Science · Simplilearn (2023)

Website UI/UX Designing using ChatGPT · Simplilearn (2023)

Human Rights Consultant · US Institute of Diplomacy & Human Rights (2023)

Certified Associate in Project Management (CAPM)

Agile Scrum Master (2022)

Lean Six Sigma White Belt · CSSC (2022)

Project Manager · IAP Career College (2022)

Advanced SEO · Simplilearn (2022)

OSHA 10 / General Industry · Summit Training Source

Lean Management (2022)

SKILLS

CAD & PLM: PTC Creo Parametric 3.0, Windchill, AutoCAD Civil 3D, SolidWorks, solid modeling, 3D rendering, GIS data

Standards & Design: ASME Y14.5-2009 GD&T, ECO/ECN, tolerance stack-up, DFM/DFA, tooling & fixtures, schematics

Battery & Assembly: pouch cell assembly, ultrasonic tab welding, Hi-Pot & leak testing, dry room, soldering/crimping, LIMS

Leadership: Product ownership, SOP development, lead assembly, Six Sigma, Agile Scrum, technician training, data reporting

Languages: English, Cebuano, Spanish
